The News.

We have only time to-day for a passing allusion to the important des. patches received late last evening. It will be observed that the elections in the East have resulted generally in favor of the Democracy. States that went Republican for many years have suddenly changed front and elected the opposition candidates. In Ohio negro suffrage was repudiated by a majority of 40,000, while the Democrats only carry the State by some 10,000 majority. The vote on this point indicates that a majority of 30,000 Republicans in the State are opposed to the extension of the franchise to colored citizens. President Johnson regards the result as an endorsement of his policy; and Congress will scarcely venture, in the face of the recent defeats, to insist unch the admission of the Southern States on the basis of negro suffrage. The proposed impeachment of Mr Johnson must fall to the ground for the same reason. Affairs in Italy are still in a very unsatisfactory state. The Garibaldians, through the arrest of their great leader and his son, appear to lack the means of organization, and have degenerated into banditti, in which capacity they are as likely to inflict injury on friend as foe. A project, which it is said Napoleon favors, is that the Italian troops shall occupy the Panal States, and the Pope remain undisturbed at the Eternal City until his death, when the temporal power of future Popes shall cease. This seems a reasonable proposition. The Pope, of course, will object; but as the alternative presented is the destruction of the peace of Europe, it is not likely that his wishes or interests will be consulted in the matter. The Fenian troubles continue. Kelly, who was rescued by the mob at Manchester a month ago, was recaptured and has since died. It seems that nothing short of a fearful example will end the miserable delusion the ignorant masses of the Irish people labor under with respect to England.

The Necessity for a Public Market.

VICTORIA, Oct 10, 1867.

EDITOR COLONIST :- You have several times urged in your columns the necessity of a public market. Those who buy as well as those who raise produce suffer much for want of this. Indeed, it is surprising that such a market has not been establish d long ere this. Those who bring to town the produce of their gar dens get scarcely more than pays its carriage thither; those who bring cattle find that they eat their heads off before season's prime pork from Comox or Cowichan have to hawk it round the town till disgusted with the whole concern. Now this is not for want of buyers, but Now this is not for want of buyers, but just because buyers and sellers are not brought together. For instance, one day I met a farmer who had been peddling round with 1,000 lbs. of new potatoes, which he had pulled up in his boat under a sweltering sun. He did not wish to spell them had and offered them at any sile that are started for the production of Russ. a sweltering sun. He did not wish to pull them back and offered them at any The same evening I met a gentle. man who was victualling a ship about to sail, and who that very day had been hunting round for 1,000 lbs. of new potatoes, and offering much more than the other sought. As it was in the beginning of the season. no one had so large a stock and he had considerable difficulty in mak-

ing up the supply in small quantities.

Now cannot the Municipal Council at

stately and self-satisfied Government, per-haps the Institution might be colonial rather than municipal. The square in front of the Government buildings would answer remarkably well. The treasury building would do well enough for an oniding would do weil enough for an office, and the old assembly room, at present doing duty as a bedroom for one of the officials, could be turned into a sheep-fold and chicken-house. As I understand that a few horses and carriages which have been connected with court will soon be sold, the market would be all the more convenient. Indeed we want a market and want it badly. Do help us, Mr. Editor, and oblige yours,
AGRICOLA.

Great Harvest Home Festival at the Parsonage, Cowichan.

Notwithstanding that the weather has been anything but propitious, this annual festival came off with an amount of eclat surpassing the expectation of the most sanguine. Probably not more than half the number of persons got together that would have done so had the weather been more agreeable; nevertheless, no fewer than seventy-nine individuals (including a goodly number of ladies) assembled to hear the Harvest Home service, that we have all now learned to look forward to as quite an annual event. The church was tastefully decorated with the fruits of the field; beautiful devices and appropriate mottoes met the eye everywhere. Just over the east window, above the altar. and beneath a cross that stood out, an emblem of hope, and smiling bunches of grain, ato., was written in evergreen letters the text from which the Rev Mr Reece preached a sermon that went to the hearts of all his hearers. The rev. gentleman reviewed the different stages of plant life, from the seed to the ripened grain, and pointed out the analysis and the stage and the stage of the st ogy that exis s between it and human life, he referred to the harvesting process that ogy that exis a between it, and human life, he referred to the harvesting process that was constantly being carried on among men, where God, the great reaper, was daily, hourly, gathering to himself the souls of mortals and stowing them in his garner. He grand Harvest Home gathering that will be when time shall have ceased to roll, when the Almighty Jehovan shall have completed grand Harvest Home gathering that will owner them them shall have ceased to roll, when the Almighty Jehovan shall have completed his barvest, when from the remotest ages down to the last turn of the wheel of time, all who have lived shall have been gathered in; when we all shall be there, either in the character of fruit fully developed and ripe, or as produce blighted by the untimely frosts of sin and iniquity. The section throughout was well reasoned and replete with home thrusts. Mr Reece commanded the interest of his hearers throughout, and altogether the Harvest Home service was quite a success Service over the little church emptied itself of its unwonted crowd of warshippers, who on the invitation of Mr Reece, to journed to the Parsonage, where they found a bountiful repast provided for them. Mr and Mr Reece did the honors with their usual good taste. Hid the weather been better it was taste. Had the weather been better it wa intended that the multitude should be enter intended that the multitude should be enter-tained outside; and tables and benches had been erected outside calculated to ac-commodate one hundred and fifty persons. The elements, as I have before said, were alverse to such an arrangement; old Sol never deigned to lift upon us the light of his countenance—not a single smile vouch— safed be for our benefit; but in spite of the safed he for our benefit; but in spite of the old fellow we enjoyed ourselves and could do it again under similar circumstances, "for where there's a will there's a way. The outdoor games that had been looked forward to with such eager anticipations of placure by the youth of both sexes were of course out of the question; the rain put a damper on everything of the kind. Two or three hardy young men did indeed brave for a short time the pelting storm and play a game or two at quoits, but I noticed they soon surrendered their position in the wet and retreated to shelter beneath Mr Reece's hospitable roof again. As evening drew on people began to think them that their homes lay at a distance, and soon the tramp of freighted steeds tance, and soon the tramp of freighted steeds and the parting greetings of friends announced that the festive party was breaking up, and that all were prepared to seek again their own respective residences. What matters it that the experience of every on was for a time after sounds of patter patter, splash, splash. Stout frames and light he rts are proof against more serious things than wind rain, and mud. The whole affair from first to last was a complete success, for which Mr and Mrs Reece have the congratu-lations of every one, including, Yours truly, WILLIAM SMITHE.

COWICHAN, Oct 6th, 1867.

favorable character for the production of Russian gold, the results obtained having every where surpassed those of preceding years. As regards Eastern Siberia the production of 1855 exceeded that of 1864 by 2.743 tons, and that of 1863 by 1.086 tons. This augmentation, which would have been greater if drought had not often interrupted the works, was the result of works in new bearings. In Western Siberia, 1865 yielded 0.272 ton more gold than was obtained in 1864 and almost twice as much as was produced in 1863. In the Oural district the production has secreely changed of late years. From Now cannot the Municipal Council at once set the thing in motion. It will protect the lieges from green-grocers who are anything but green. They have simply to fence a bit of ground and proclaim that the first Saturday of every month is the market day of Victoria. There are several desirable spots for this —a bit of the Church Reserve, the Indian Reserve, or the front of the city prison. Or, if we may expect anything so small in the way of public improvement from our last to state the production of the state in the Oural distance of its bearing, adopt as a minimum the average production of former year:—that is about 1.670 tons for this the Oural group, and 2:293 tons for Eastern Siberia. The total production gold in Russia was estimated at nearly twenty three tons in 1864, and at a little more than twenty six tons in 1865.—London Mining Journal.

VIENNA, Oct. 7-The Neuefreie Presse publishes as authentic a summary of a conversation between the Czar and Fund Pasha, who recently visited him. The Czar said it is indispensable that Turkey shall cede Candia to Greece. He told Fund to represent to the Sultan that he had better have Russia for a friend than to trust for supporters to the other end of the world. The Czar added, Russia may some day cease to be conservative then the Sultan will find Russia opposing to him all the forces she can command. Fund Pacha on his return to Constantinople received from the Russian Ambassa-dor a project for a Russo-Turkish alli-ance having for its basis the political independence of the Isle of Crete, the neutrality of the Porte in the eventuality of complications which might arise in the question between Turkey and Russia, to the exclusion of all other powers proposal is said to have been rejected by the Porte.

J. C. Ayer & Co. Gents: 1 feel it my duty to acknowledge what your Sarsaparilla has done for me,
Itaying inherited a Scrofulous infection, I have
suffered from it in various ways for years. Sometimes it burst out in Ucers on my hands and arms,

without much relief from anything. In fact, the
disorder grow worse. At length I was rejoiced to
read in the Gospel Messenger that you had prepared
an alterative (Sarsaparilla), for I knew from your
reputation that anything you made must be good.
1 sent to Cincinnati and got it, and used it till it
cured me. I took it, as you advise, in small doses of
a teaspoonful over a month, and used almost three
bottles. New and healthy skin soon began to form
under the seab, which after a while fell off. My
skin is now clear, and I know by my feelings that
the disease has gone from my system. You can well
believe that I feel what I am saying when I tell you,
that I hold you to be one of the appettes of the age,
and remain ever gratefully.

Leucortham or Whites, Ovarian Tumor, Eterine Ulceration, Fennie Diseases. Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Fennie Diseases of the Scrofulous diathesis. I have cured many invetrate cases of Leucortham by it, and some where the complaint was caused by ulceration of the ulcrus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements." Edward S. Marrow, of Newbury, Ala, writes: "A dangerous occrian tumor on one of the females in my family, which had defied all the remedies wo could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extripation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which bailled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been abroken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying.
